

Soft Air Targets

Towed by aircraft for air defence live fire practice

Airsafe Sweden manufacture soft air targets in different sizes with different characteristics. We also provide maintenance and repair.

Please see below for our current range of products. Fully customised soft air targets manufactured on request.

Towed by aircraft for live fire practice

Product Range and Technical Data

KRN 27-45-450

Part Number:	2-140
Diameter, front:	270 mm
Diameter, rear:	450 mm
Length:	4500 mm
Suspension lines:	450 mm
Colour:	Orange
Features:	1000 mm radar reflective segment

NKRZ 34-52-450

Part Number:	2-143
Diameter, front:	340 mm
Diameter, rear:	520 mm
Length:	4500 mm
Suspension lines:	575 mm
Colour:	Orange
Features:	Stabilized nose cone with radar reflector 4 x radar reflective panels, 450 mm ea.

SLR 34-60-400/13

Part Number:	2-1194
Diameter, front:	340 mm
Diameter, rear:	600 mm
Length:	4000 mm
Suspension lines:	670 mm
Colour:	Orange/Black
Features:	Full length radar reflective panels Rear radar reflective panel

KRZ 51-95-800

Part Number:	2-145
Diameter, front:	510 mm
Diameter, rear:	950 mm
Length:	8000 mm
Suspension lines:	640 mm
Colour:	Orange
Features:	4 x radar reflective panels Rear radar reflective panel
